

TECHNICAL SHEET

PRODUCT: DURBASE

Description:

Pigment paste

Characteristics:

Product	mastic
Colour	Grey
Specific weight	1,85 g/cc to 20°C
Scent	Characteristic
Type	Mono component
Painting resistance	Total

Uses and applications:

To be used with a spatula.

Apply with the necessary amount of mastic to cover the defects on the metallic surface.

Catalyzer:

Mix:

Curing time:4-6h Curing to the air

Characteristics:

To be applied on	Iron / Steel. Very easy to apply in any metallic surface.
Elasticity	Rigid
Adhesion	Very good
Hardness	Very good
Solubility in water	immiscible
Decomposition temperature	170°C
Steam pressure	11,5 mm Hg to 20°C

TECHNICAL SHEET

Stability and reactivity:

Stable in conditions of correct storage.
